ReNeuvo Group Inc. in the spotlight:

ReNeuvo Group Inc. Selects Mexico as the First International Country

Bringing Recycling and Manufacturing to the Next Level!

Brant County, Ontario Canada, June 4, 2020: After evaluating and analyzing several potential countries, it has been concluded that Mexico offers the best combination of manufacturing infrastructure, market stimulated by exports of labor-intensive products and industrial base needed for foreign direct investment. Currently working with CBRE Mexico (www.cbre.com.mx) support we are in the process of selecting a state in Mexico to locate the first international plant. For more detailed information visit our web site at (www.reneuvocompositesmexico.com)

We would like to introduce our organization and our revolutionary product to you. We are ***Bringing Recycling to the Next Level!*** ***We are Bringing Manufacturing to the Next Level!*** With our environmentally responsible plastic pellets made from reprocessed recycled tire rubber crumb, post-industrial and post-consume plastic, we have developed an alternative to resin made from virgin materials and while doing so, we are helping to save the world from hundreds of thousands of tires and millions of pounds of plastics going to the landfills across the Globe! Our product, **XyloX™** has many uses, primarily in the automotive, construction and packaging industries and others.

About ReNeuvo Group Inc.: ReNeuvo Group Inc. functions as a Management, Financing and Administrative Services company. ReNeuvo Group is also under contract to provide administration and accounting services exclusively to the ReNeuvo Group of Companies in which it has an interest. ReNeuvo Group feels so strongly about our planet and the environment in which we live, that we will be the first organization globally to be a 100% paperless operation! Our operation will utilize digital manufacturing, and our facility will operate with highly secured, modern technology with the assistance of our strategic partners such as Bell Canada, Cisco, HP, and others.
